On July 5, 2019, NSS Unit 1 of Swarnamoyee Jogendranath Mahavidyalaya organized a Vanamahotsav Observance programme in our adopted village, Amdabad Madyapally, aiming to foster a rejuvenated and salubrious environment. At 2 p.m., 47 dedicated NSS volunteers, comprising 29 girls and 18 boys, ventured into the nearby adopted village. Through this initiative, the program endeavored to instill awareness among members of NSS units, college students, and villagers about environmental pollution while inspiring them to partake in tree plantation activities. This concerted effort not only aimed to enhance the green cover of the region but also sought to nurture a sense of environmental stewardship among the participants. Furthermore, beyond the act of planting trees, the program aspired to sow seeds of consciousness and responsibility toward environmental conservation, thereby fostering a sustainable and healthier habitat for current and future generations.

Report of Aranya Saptah Celebration

A plantation programme was held in 16th July, 2019 at 11 am in Swarnamoyee Jogendranath Mahavidyalaya by the NSS unit-1 and Students' Welfare Committee, in collaboration with Department of Geography. The programme was divided into two parts. The first part was a lecture programme on afforestation, and the second part was a plantation around college premises. The programme was started by the lecture of NSS Officer Parimal Mandal. He gave a brief speech on what the duty of students is on plantations. Then Mr. Aparesh Mondal and Mr. Moyazzem Hossain Mondal gave their valuable lectures on how afforestation is a crucial tool for environmental protection and sustainable development. By planting more trees, we can combat climate change, prevent soil erosion, and promote biodiversity. After the end of the lecture programme NSS programme officer Parimal Mandal and 55 NSS volunteers along with students joined the plantation programme adjacent area of our college. The programme was completed after an hour of planting various types of plants. Through the lecture, students and present others become aware of the importance of trees and green spaces in mitigating climate change, improving air quality, and preserving biodiversity. Involving students in a plantation program adjacent area to the college fosters a sense of community involvement and responsibility towards the environment.

If we can make it a habit to keep our surroundings, we will automatically inspire others around us to follow suit. Little by little, it will be possible to make a big difference in fighting the disease effectively.

The last speaker on the theme was Mr. Subrata Bera, Head Clerk. Mr Bera made us aware of the fact that the only resource we need to spend in preventing dengue is our time. We must first decide to devote some of our time for the benefit of our community, be proactive in spreading awareness about the issue, and soon enough we will make an impact. A total of 65 participants including students, staff and local villagers were present the programme.

Outcome:

- I. Participants gained a better understanding of dengue fever, its symptoms, transmission methods, and preventive measures.
- II. Attendees learnt specific actions they can take to reduce the risk of dengue, such as eliminating stagnant water sources where mosquitoes breed.

Report of AIDS Awareness Programme

The NSS Unit-I of Swarnamoyee Jogendranath Mahavidyalaya organized an awareness programme for World AIDS Day on 01 December 2022 at 1 P.M in Room no. 16. The programme started with a welcome address by the NSS Officer, Mr Parimal Mandal. Prof. Mandal introduced the theme to the gathering, dwelling on the magnitude the AIDS pandemic has assumed and the need for increasing general awareness so that the problem may be combatted effectively. Subsequently, several other speakers spoke on various issues related to AIDS. The last speaker was the chief guest Sandeepan Mishra, a doctor from Reyapara Rural Hospital. He gave his speech in detail about how AIDS spreads, how to prevent it, how AIDS patients can stay healthy for a long time and how society should treat AIDS patients. He also advised to contact the hospital directly without panicking about it. A total of 62 students including NSS volunteers, and staff, along with a few villagers participated in this programme.

Outcome of this programme:

- I) Participants gained a clear understanding of what HIV and AIDS are, the difference between them, and how the virus affects the body.
- II) Enhanced knowledge about how HIV is transmitted and effective ways to prevent it, such as safe sex practices, needle exchange programs, and the importance of blood screening.
- III) Awareness about the availability and importance of regular HIV testing, and the understanding that early detection leads to better treatment outcomes.
- IV) Programs can help reduce the stigma associated with HIV/AIDS by dispelling myths and promoting empathy and support for people living with HIV.
